

22nd Annual Congress of the Chest Wall international Group

*Dr. Gastón Bellía-Munzón*

Dr. Gastón Bellía-Munzón obtained his degree as a medical doctor at the Universidad del Salvador School of Medicine in 1997.

He completed his training as a Pediatric Surgeon at Dr. Pedro de Elizalde Children's General Hospital between 1999 and 2004, where he currently works as a staff surgeon performing minimally invasive techniques for the correction of thoracic deformities and airway procedures.

He is the head of Clínica Mi Pectus at Fundación Hospitalaria, a high-volume center specialized in the diagnosis and treatment of chest wall malformations.

In Argentina, he is a pioneer in complex pediatric laryngotracheal resection surgeries.

He assists scientific meetings on a regular basis. In addition, he has published numerous scientific articles in national and international journals, authored book chapters on thoracic and pediatric surgery, and performed several surgeries abroad as Visiting Professor.
