

22nd Annual Congress of the Chest Wall international Group

*Dr. Horacio Abramson*

Horacio Abramson studied medicine at Buenos Aires University (UBA), where he graduated in 1973 as a Doctor in Medicine. He started his career in 1979 as a Thoracic Surgeon at "Antonio Cetrángolo Thoracic Institute" where from 1997 to 2018 he was the Chief of Thoracic Surgery Services. He is also an Associate Director of Thoracic Surgery at Buenos Aires University and a member of the Argentine Society of Thoracic Surgery and the Argentine Respiratory Medicine Society.

Since 1990 he has specialized in Chest Wall Malformations. In 2000 he began utilizing the minimally invasive technique developed by Dr Donald Nuss to resolve the Pectus Excavatum disease. Since 2002 he has developed an Apparatus and a particular technique for minimally invasive Pectus Carinatum repair.

Dr Abramson`s medical studies include training experiences at Children`s Hospital of the King`s Daughters HDK, Norfolk, Va (D.Nuss, MD); Babies & Children`s Hospital of NY (C.J.H. Stolar, MD; S. Stylianos, MD) and Children`s Hospital, Boston, MA (R.Schamberger, MD).
